Wish To Be Made Conscious Of Ability To Achieve Ends

If You Are Persistent Day After Day In Your Desire You Are Sure to Be

"Middy Goloshes" a fairy gave to mortals once on a time.

Every one who were these goloshes and made a wish received an immediate answer, and without exception regretted getting the coveted boon.

One man wanted to travel in Switzerland and found so much discomfort that he at once asked to go to the other side of the mountain.

There he found it too hot, and there were insects and beggars. And he found no satisfaction until he wished himself back at home. One wished to go back three hundred years, but was utterly wretched in the conditions he found existing, streets filled with mud, and mean, if smelling lamps and comfortless houses.

This wish will include every other wish you might feel inclined to give unterance to at various times.

THE FATHER OF A GREAT STATE.

By Thomas Tapper

HALIAM PENN was an Englishman, born in the year 1644. He was a traveler, a man of affairs, an adviser of kings, and a thinker on those subjects which are more permanent than places, business, kings or queens.

At the age of 48 Mr. Penn began to write about those thoughts that seemed to him of permanent value. He had mingled with mon of low and high degree, he had spent some time in jail, he was the friend of anyons in trouble, and he had founded a colony in America that bore his name. All this made him feel that he could safely write out certain impressions of life that might be of value to others. That he was a man of honorable intent he proved to the world by making a treaty with the indians under a great tree on the bank of the Deleaver river.

Why Salves Can't Cure Eczema

Since the old-fashioned theory of curing eccems through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the liner skin below the epidermis where the eccema germs are lodged.

This—the quality of penetrating—probably explains the fremendous success of the well known liquid eccema memedy, oil of whitesgreen, thymol, glycerine, etc., as compounded in D. D. D. Prescription.

We have sold other remedies for skin troubles but none that we can recommend as highly as this for we know mend as highly as this for we know it as highly as this for we know mend as highly as this for we know mend as highly as high to prove it.
